

DIGITEX MEDICAL SYSTEMS (P) LIMITED

Product List- 2012

V3.0AUG2012

Our Brands: BTL | UTASCO | BISTOS | COVIDIEN | RESMED | CARDIAC SCIENCES | CRITICARE | MEDIAID | UNETIZ | LED SpA | TSCI

Our Quality: CE, IEC, FDA, ISO9001

Supplier	COE	Category	Name
BTL (United Kingdom)	Cardiology	Electrocardiograph	BTL-08MT Plus: Standard Features with 5.7"Color. Touch Screen Display with/without Interpretation Capability.
BTL (United Kingdom)	Cardiology	Electrocardiograph	BTL-08LT: Standard Features with 5.7"Color. Touch Screen Display with/without Interpretation Capability
BTL (United Kingdom)	Cardiology	Electrocardiograph	ECG Machine Trolley for installation and mobility of BTL range of ECG Machines.
BTL (United Kingdom)	Cardiology	Electrocardiograph	BTL-08 Win Data Management Software for advanced ECG management and analysis. The system is capable of connectivity to Hospital HIS.
BTL (United Kingdom)	Cardiology	TMT System	BTL-08: Ergo System with Standard Software & SD3 ECG Machine Unit with Standard Accessories. Note: Ergo System excludes treadmill. Imported/Local TM available at additional costs.
BTL (United Kingdom)	Cardiology	TMT System	BTL-08: Ergo II System with Standard Software & SD3 ECG Machine Unit with Standard Accessories. Note: Ergo System excludes treadmill. Imported/Local TM available at additional costs.
BTL (United Kingdom)	Respiratory Care	Spirometry	BTL-08: Spiro Pro System with Standard Accessories with PC Hardware
BTL (United Kingdom)	Respiratory Care	Spirometry	BTL-08: Spiro PC with Standard Accessories (Without PC Hardware)
BTL (United Kingdom)	Respiratory Care	Spirometry	BTL-08: Cardio Pneumology System , ECG/Spiro(BTL-08 LT) with Standard Accessories
BTL (United Kingdom)	Respiratory Care	Spirometry	BTL-08:Cardio-Pneumology System , ECG/ Spiro (BTL-08 MT Plus) with Standard Accessories
BTL (United Kingdom)	Cardiology	ABPM	BTL-08 ABPM Holter System for Blood Pressure continuous monitoring for 24,48,51 hours with day-end night modes and LED Numeric recorder display.
BTL (United Kingdom)	Cardiology	ECG Holter	BTL-08: 3 Channel Holter System with Recorder, Software & Standard Accessories
BTL (United Kingdom)	Cardiology	ECG Holter	BTL-08: 7 Channel Holter System with Recorder, Software & Standard Accessories
UTAS (Russia)	Cardiology	ECG Machine	U-Card 100: 3/6 Channel ECG Machine Unit with Standard Accessories & Software with Interpretation.
UTAS (Russia)	Anesthesia	Multi-parameter Patient Monitor	UM-300 Multi Parameter Touch Screen High-end Networked Patient Monitor with 5 Standard Parameters- ECG (5 lead), RR, NBP, SPO2 & TEMPERATURE. This 12.1" TFT Color Display can show 8 waveforms and can have 4 IBP, EtCO2 (Mainstream-Sidestram), Cardiac Output, AGM, Central Monitoring Connectivity, BIS Monitoring and Comprehensive (32) Arrhythmia Detection & Auto Storage.
BISTOS (Korea)	Obs-Gynae	Fetal Doppler	BT-200 Fetal Doppler with Standard Accessories. (CE Marked ; FDA Approved)
BISTOS (Korea)	Obs-Gynae	Vascular Doppler	BT-200 Vascular Doppler with Standard Accessories (2-Probes).
BISTOS (Korea)	Obs-Gynae	Fetal Monitor	BT-300 Antepartum Fetal Monitor with Standard Features & Standard Accessories (1 US Probe + 1 TOCO + 1 Event Marker)
BISTOS (Korea)	Obs-Gynae	Fetal Monitor	BT-350: 3 Channel (FHR 1, FHR 2, UC) CTG Machine Unit with 7" Wide TFT LED Color Display, Standard Features & Standard Accessories. FDA Approved.
BISTOS (Korea)	Obs-Gynae	Fetal Monitor	BT-350: 3 Channels (FHR 1, FHR 2, UC) CTG Machine Unit with 7" Wide TFT

			LCD Color Display with Graphs , Standard Features & Standard Accessories. FDA Approved.
BISTOS (Korea)	Obs-Gynae	Fetal Monitor	BT-330 CTG Machine Unit with Standard Features & Standard Accessories
BISTOS (Korea)	Obs-Gynae	Fetal Monitor	BCM-359 PC Interface Central Monitoring System with 8 Monitors. Monitoring & LAN Network Connectivity with Standard Software & Accessories.
BISTOS (Korea)	Obs-Gynae	Fetal Monitor	BT-400 LED Phototherapy for Neonatal Jaundice Treatment with Standard Features & Standard Accessories.
BISTOS (Korea)	Obs-Gynae	Fetal Monitor	BT-410 Medical Head Lamp with Ultra Bright LED Lighting & Additional Astral Lamp.
BISTOS (Korea)	Obs-Gynae	Fetal Monitor	BT-700 Pulse Oximeter with SPO2 Monitoring and Standard Accessories.
BISTOS (Korea)	Obs-Gynae	Fetal Monitor	BT-700 Pulse Oximeter with SPO2 & NBP Monitoring
COVIDIEN (USA)	Respiration	ICU Ventilator	Puritan Bennett™ 840 Ventilator is responsive to patients and offers superior comfort, delivering sensitive, precise breaths to critically ill neonatal through adult patients. PB™840 along with a GUI of 18.1" is technologically sophisticated, highly upgradeable and has enhanced NIV that improves comfort for patients and performance for clinicians.
COVIDIEN (USA)	Respiration	ICU Ventilator	Puritan Bennett™ 760 provides sophisticated, affordable respiratory care in the ICU. PB™ 760 is equipped with a high performance gas delivery system combined with frictionless air piston and flow triggering. PB™ 760 comes with a Unique Feature of Speaking Valve Mode which allows the Physicians to ventilate patients on speaking valve while monitoring delivered volumes.
COVIDIEN (USA)	Respiration	Portable Ventilator	Puritan Bennett™ 560 is a portable ventilator which helps enable patients to live with greater independence while providing Caregivers with the peace of mind that comes with a reliable and trusted ventilation system along with a long battery. PB™ 560 includes features like DATA Portability via USB Memory Device.
RESMED (Australia)	Respiration	CPAP/BiPAP	S9 AutoSet™ automatically delivers the ideal combination of Automatic Positive Airway Pressure (APAP) with Easy-Breathe™ Expiratory Pressure Relief (EPR) to prevent collapse of your upper airway during sleep. S9 Auto Set is a self adjusting system is indicated for the treatment of Obstructive Sleep Apnea (OSA) in patients weighing more than 30 Kg.
RESMED (Australia)	Respiration	CPAP/BiPAP	Stellar 100 is a Light, small, quiet and Versatile. It delivers Resmed's high quality performance for a wide range of adult and pediatric (13+) patients, invasive and noninvasive applications and hospital and homecare environments. Stellar 100 comes with Effective Leak Compensation, Unique Ti control and many other Unique Features.
RESMED (Australia)	Respiration	CPAP/BiPAP	VPAP™ S and VPAP™ ST provides Noninvasive Ventilation for patients weighing more than 13Kg with respiratory insufficiency or Obstructive Sleep Apnea (OAS), in the hospital or home. VPAP™ S and VPAP™ ST includes platform features such as Climate Control, Easy- Breathe Motor and many treatment technologies such as Vsync, Ti Control, Trigger and Cycle Sensitivities etc.
RESMED (Australia)	Respiration	CPAP/BiPAP	Elisee™ 150 is a premium volume and pressure ventilator ideally suited for use in intermediate care, sub-acute care units, recovery rooms, during patient transportation and for the treatment of chronic conditions in the home. Elisee™ 150 combines Volumetric and Barometric Ventilation Modes with a single or double Limb Circuit.

RESMED (Australia)	Respiration	CPAP/BiPAP	VS™ III comes with a comprehensive range of pressure and Volume Modes suitable for adults and pediatrics. VS™ III is suitable for invasive and noninvasive use and is Easy-to-use with Single and Double Circuits along with unique Leak Modes and Valve Modes.
RESMED (Australia)	Respiration	CPAP/BiPAP	VPAP™ III ST-A Quicknav has a large screen, intuitive menus and menu icons- all designed to make it simple for you to use. QuickNav is a combination of easy-navigation features, including logically grouped parameters that are easy to find, view and assess and multiple parameters to one screen, offering information at a glance.
CARDIAC SCIENCE (United Kingdom)	Cardiology	TMT System	Quinton Q-Stress is a gold standard in cardiac stress testing systems that provides superior clinical data while meeting your procedural needs. Q-stress Connectivity interface streamlines your workflow.
CARDIAC SCIENCE (United Kingdom)	Cardiology	Treadmill	CR60 Treadmill provides a comfortable experience. TripleFlex shock absorption provides ideal cushioning for walkers and runners up to 400 lb (181 kg). The Ultradrive system provides exceptionally smooth power and accuracy even at the slowest speeds and the heaviest weights.
CARDIAC SCIENCE (United Kingdom)	Cardiology	AED Defibrillator	Powerstart AED G3 Pro is semi-automatic operation, manual override option, and 3-lead ECG monitoring capability give you the tools you need to be in complete control.
CARDIAC SCIENCE (United Kingdom)	Cardiology	AED Defibrillator	Powerstart AED G3 Plus is a Rescue Ready device that self-tests daily to ensure it works when you need it. The Rescue Coach voice prompts and metronome guide you through a very stressful rescue situation.
UNETIXS (USA)	R&Imaging	Vascular Diagnostic System	Revo is simply the fastest and most accurate PAD diagnosis system on the planet. The system delivers diagnostically correct pressures that results in production of automatic diagnostic ABI in as little as 5 minutes. The system gives Dual Channel C-PVR.
UNETIXS (USA)	R&Imaging	Vascular Diagnostic System	MultiLab Series- 2-CP-R is world's most portable full function dual-channel vascular diagnostic system that features TruDop Doppler Probes, calibrated PVR, dual channel PPG probes with clips and programmable software.
UNETIXS (USA)	R&Imaging	Vascular Diagnostic System	MultiLab Series II- LHS is designed to perform all standard non-invasive arterial and venous studies.

UNETIXS (USA)	R&Imaging	Vascular Diagnostic System	MultiLab Series II-LHS/IMG gives physiological and ultrasound imaging in one unit.
LED SpA (Italy)	OT Solutions	High Frequency Electro-Surgery Equipment	Surtron 200 is monopolar and bipolar electrosurgical unit which is suitable to light and medium surgery. This allows the surgical with minimal invasive procedure of resection, evaporation and coagulation.
LED SpA (Italy)	OT Solutions	High Frequency Electro-Surgery Equipment	Surtron 300/400 is monopolar and bipolar electrosurgical unit that comes with double generator for twin surgical procedures. The device is multiprogrammable by the user that does automatic self diagnosis with extension drivers and interlock signals
TSCI (Italy)	OT Solutions	Air Warming System	Mistral Air Forced Air Warming System ensures optimum performance and equal distribution of heat throughout the entire blanket. The unit provides constant temperature to the patient within 60 seconds with default start up temperature of 38 celcius reducing the risk of human error. The device comes with a wide range of blankets.
MEDIAID (USA)	Anesthesia	Multi-parameter Patient Monitor	Mediaid M4 Nova is a compact & affordable multipara monitor that senses and displays patient's vital signs such as ECG/Resp, SpO2, NIBP, Temp & Pulse Rate. The monitor is upgradable to single/dual IBP and Etco2 and comes with a 8.4 inches TFT color display. The device is capable of delivering high-end clinical data such as ST segment analysis , 23 kinds of arrhythmia analysis and Oxy-CRG analysis.
MEDIAID (USA)	Anesthesia	Multi-parameter Patient Monitor	Mediaid M6 Aster is stats of the art vital sign networked monitoring system for reliable and accurate data-acquisition. The affordable and light weight solution with battery backup to monitor the patients virtually everywhere. The monitor displays vital signs such as ECG/Resp, Spo2, NIBP, Temp & Pulse Rate and is upgradable to IBP/Etco2. The device comes with a 12.1 inches TFT color display and can show upto 9 waveforms along with advance parametric monitoring of HR, NBP, SpO2, Arrhythmia, ST Segment and Pacemaking analysis.
MEDIAID (USA)	Anesthesia	Table-Top Pulse Oximeter	Mediaid M31DT is a desktop Pulse Oximeter that comes with Two 3 Digit, 7 Segment LED display for %Spo2 and Pulse Rate. It also has Two 10-Segment LED Bar Graph for Pulse Amplitude and Perfusion Quality indication. The device comes with in-built automatic alarm management system and 12 Hr. rechargeable battery.
MEDIAID (USA)	Anesthesia	Table-Top Pulse Oximeter	Mediaid M900 is a desktop Pulse Oximeter that comes with LCD display screen for viewing waveforms. It also has separate LED display for SpO2 and Pulse Rate readings. The unit has on-screen display for SpO2 and Pulse Alarm limits. Rate trend for upto 24 hours with graphical tabular trends. Unit comes with 2 hours continuous operation battery back-up.
MEDIAID (USA)	Anesthesia	Single Syringe Pump	Mediaid MS100 is a single syringe pump having a micro controller based design with automatic syringe size detection, audio-visual alarms, injection modes- flow rate, time-based and body weight.
MEDIAID (USA)	Anesthesia	Dual Syringe Pump	Mediaid MS200 is a double syringe pump with features like syringe identification, bolus, real-time shift totals, occlusion pressure release, mute,

			automatic power switching, residue reminder, system memory, history log, separate channel alarm and power saving mode. Weight is 4.5 Kgs.
MEDIAID (USA)	Anesthesia	Infusion Pump	Mediaid MI500 is curvilinear peristaltic infusion pump compatible with IV sets of any standard, bright TFT display, system memory, selectable infusion modes: ml/h, drop/min, time-based, body weight, enteral feeding. The pump has adjustable purge and bolus rate: 500,800,1200 ml/h and has DC input for Ambulance use. System has 3 h operational battery at 25 ml/h.
MEDIAID (USA)	Cardiology	Electrocardiograph	Mediaid ME10 is a single channel ECG machine that works on digital isolation technology minimizing signal interference. The unit comes with a high-resolution thermal array printer with user selectable Auto/Manual operation, optional rhythm lead detection for OB serving abnormal heart rate, power-off automatically after long time non-operation.
MEDIAID (USA)	Cardiology	Electrocardiograph	Mediaid ME100 is a single channel ECG machine giving 12-lead simultaneous acquisition. The device has 7 inches high resolution TFT color screen with 3 waveforms display, user friendly interface, in-built thermal array printer, histogram and trend for RR interval analysis and 20 ECG data storage.
MEDIAID	Cardiology	Electrocardiograph	Mediaid ME300 is a three channel ECG machine giving 12-lead simultaneous acquisition. The device had 7 inches high resolution TFT color screen displaying 3+R, 6+R,12+R waveforms. The device had storage of upto 2000 ECG and comes with auto/manual modes.
CRITICARE	Anesthesia	Pulse Oximeter	Criticare miniSpO2T Pulse Oximeter comes with proprietary DOX digital Spo2 technology and heart rate in one handheld monitor. The unit works 24 hours and is rugged, reliable, incredibly cost effective for hospitals, clinics, private offices and EMS. Works on 4 AA batteries and weighs 280 gms.
